TO-DAY. The news to-day is still insufficient AND NOW GRANT TAKES to settle the result of the late el ction. All reports, however, as to the returns in the three doubtful States, give way in importance and interest to the question of a fair count, which President Saying a Fair Count Votes Grant seems determined shall be had. All good citizens, of whatever political faith, cannot object to the proposition that the man who is elected fairly should be so declared It Tilden is legal.y elected the whole power of the government should be invoked in his behalf, and if Hayes has the most legal votes he ought to have the same consideration at the hands of the authorities. No good citizen will deny the fairness

#### A FALSE REPORT.

of this proposition.

The statement in the press dispatches this morning to the effect that Gen. Black had died last night, is, we are happy to say, without foundation. At 2 P. M. to day a Danville telegram re ceived at this office says "Gen. Black was the liveliest corpse you ever saw this morning.

MR. HOAR, although supported for "great dailies in the East, received be 7,259. less than one fifth of the vote given to

been very unfriendly to Mr. Blaine, and yet, had Mr. Blaine not gentered into the late canvass and made several speeches, it is difficult to see where the editor of the Commercial would have Institute "address."

As we go to press this morning-a few minutes before 4—our "special commissioner" reports Mr. W. F. Storey, alias The Old man of, the Times, the election of Sam Tilden. The reporter could hear him groan and see tion. him sweat, and overheard the words "Out of the paws of hell, Good Lord LOUISVILLE, Ky., Nov. 10—The deliver him." He was still wrestling report that Senator Beck and Henry as one without hope as we go to press. - Chicago Tribune.

howling over what they call "interfer- they would go in the interest of peace ence with the internal affairs of the and order. He expressed the opinion states," but just now every train from that it would be sminently proper for the north bears leading democrats southward on some mysterious mission, but supposedly bent on the wor: of Charles Francis Adams and William M. helping their confederate brethren to Evarts, and the parties composed of count up majorities for Tilden and Re- conservative men who have the confiform. What business has Mr. Magone such an arrangement would be able to in Florida just now, or why should Abe secure the fair count of the States and Hewitt and Thurman and Watterson satisfy the whole people, averting a and Corse and others of their ilk all most dangerous issue, and perhaps, an

leading manufacturers of fire arms and legal boards of canvassers are unmolestammunition in the United States are working to their utmost capacity in Should there be any grounds of suspicfilling orders for things for other people to kill each other with. It is stand ted that not only are new fire arms of the most approved patterns in great his counted in or placed there by fraud. demand, but large quantities of old The country cannot afford to have the Government stock are being disposed of result tainted by suspicion of illegal or as well. One firm, we are told, has false returns. just closed up two very heavy contracts, one with Egypt and another with Spain. It is also noted that the demand for fire arms of all sorts continues heavy from Mexico and other South American republics. In Mexico, par ticularly, the cry for arms is incessant, apparently in expectation of a violent Presidential contest. At last accounts the insurgents were still concenerated in the State of Oaxaoa, not venturing beyond, but it is conjectured that the dev sign is to declare the election of Lerdo de Tejada unconstitutional, and to pronounce in favor of Iglesias as his successor. Hence the demand for arms. There have also been sold in the New York market since the lat of January some 13,006,000 pounds of copper, of which over 12,000,000 were for export. Nearly all this is the product of Lake Superior, a pure native ore preferred for ammunition. The United States produces in all about 40,000,000 pounds per annum, of which Lake Superior supplies 35,000 pounds. The Winchester Company, it is understood, have furnished for European parties from 3,000,000 to 4,000,000 pounds of

copper cutridges.

THE KANSAS PACIFIC.

A Trip of Observation from Kanass City to Denver Over this Thoroughfare.

and western belts of Kansas, and finds
Kit Carson in the easternmost strip of
Colorado, 50 miles from the dividing
houndary line. What a Great Rallroad is Doing for e Development of a Great State.

A Vain Search for the Great ' American Desert.

Its Solitudes Possessed and Reclaim ed by the Farmer and Herder.

The System of Rollway Lines Under the Management of the Company. Its Land Department.

FORCIBLE FACTS AND FIGURES.

[Special Correspondence Chicago Times ] DENVER, Col., Sept. 26.-The railroad is the avant courier of American progress and civilization. It is the primal and chief developing force of this continent. It will, therefore, be in strict accord with the unities, if, in presenting to the readers of The Times the results of a trip of observa-tion across the new countries of Kansas and Colorado, the Kansas Pacific, the earliest and most important of Kansas railroads, be employed as a series of illus-trative base lines. First, with respect to the road itself. The Kanas Pacific railway is not a line merely. It is a system. As such, considered singly, by itself, it is one of the most perfect and complete in the United States. Under the act of con-gress providing for the building of a railroad to the Pacific, the first ground was broken in its construction near Wyandotte on the state line between the then slave Mis souri and free Kansas, in 1863. It was not an extension of an eastern line, push not an extension of an eastern fine, pushing, by its own power of accretion, its way westward. There was at that time no line to the east. It was an enterprise in the density of forest and wilderness of prairic, solitary and remote. Four trans congress against Butler by a pretended 6.636. If the two counties still out lines from the east now connect with it, party nomination, and by the New should cast exactly the same vote they and constitute it an important segment of party nomination, and by the Itew should east exactly the same vote they and constitute it an important against the great transcontinental railway system.

York Iribune and half a dozen other did in October, Hayes' majority will of the American continent. It is scarcely e 7,259.

The Democratic State Committee but a graded road bed extending from the still assert their perfect confidence in state line interiorly a short way up the Kansas river. The company now own Tilden's election. The Republican and control a thousand miles of operated railway—its main line stretching from the Missouri river to the Rocky Mountains its numerous diverging branches penetra-ting to the northwest and the southwest.

THE STREET OF LINES under its management is as follows: The Kansas Pacific proper, from Kansas City to Deover, a distance of 640 miles. The Leavenworth branch, 34 miles in

length.
The Junction City and Fort Kearney line, completed and operated a distance of 35 miles to Clay Center. The Arkansas Valley railroad, from Kit Carson to Las Animas and La Junta, 76

The Denver Pacific, from Denver t Chevenne, on the Union Pacific, 106 miles.
The Boulder Valley, diverging from the

interior west, and in growth and population one of the most important in the union. It is a matter of special interest and advantage to the Kansas immigrant

that a higher relative price is paid in its market for the products of Kans's soil than in any other city of the country annually increasing. After a few plough-lags he believed the ground would be or-dinarily fruitful. Beyond Ellis there are THE FIRST SECTION OF THE BOAD from Kansas City to Junction City, a distance of 138 miles, courses the older, most tance of 138 miles, courses the older, most populous, and best developed districts of populous, and best developed districts of the state. Towns of important position the state. Towns of important position the state. THE FIRST SECTION OF THE ROAD most dangerous issue, outburst of violence.

GEN. GRANT'S ORDERS.

Deeple of the southern states are compotent to do their own counting, and any interference with their duties in that line will be very promptly and properly resented.

It is an ill wind that blows nobody any good. Thus it appear that all the leading manufacturers of fire arms and legal boards of canvassers are unmolest.

In the performance of their duties.

In this city is the main office of the kenses being possessors of absundant position of important position of important position and rapid growth are springing up along settled in Elits. county, and have estable and a number of testilence and rapid growth are springing up along of important position of important position of important position and rapid growth are springing up along of important position of important position of the state. Towns of important position of the state. Towns of important position and rapid growth are springing up along dished the villages of Catherinatad and Herizog. They are a most thrifty, econor of the proper and state in the state. Towns of important position of the state. Towns of important Pacific land department, under the management of Land Commissioner Mr. S. J. during the spring, summer and fall months, and are kept in good flesh during the winter on the short curly buffalo grass of the plains. The various herds, each Gilmore, a gentleman of whom I hear it said that, in dealing with the immigrant and land purchaser, he sacrifices no principle of right and personal honor in the presumed interest of his road. Documents containing full and clear information on

distinguished by their owner's peculiar brand, mingle indiscriminately, and are wandering and scattering at widely remote containing to the inquirer may confidently fely, wandering and scattering at widely remote will be sent from his office to all desiring distances. Sharp rayines and sequestered information concerning Kansas generally, hollows running up from the water courses or the lands of the company. Like law-around over the prairies, furnishing sofficers that the state capital and client protection from the wintry storms Topeka, the state capital, and cient protection from the wintry storms interior town, has a handsome which sweep them. largest interior town, has a handsome location and many cultivated and beautial homes, which seem to indicate the ntelligence and refinement of their occu-Of this, the eastern section of grassy plains, a beautiful champaign counry, interspersed with forests and groves, over whose tortile and verdant waters the elk, bonalo, deer, and wild horse roamed in their season, the wild aspect of cultivahard-pan, efficiently retaining the moisture in the surface soils. The rains which

ted fields broadly laden with waving grain, immense richness of tall, luxuriant corn,-a wealth of ripening crops from Editor Picayune:

In your morning issue of this date I and with surprise the following statement:

"Dispatches were exchanged last night by Kellogg and Chamberlain; also by sallog and Santan Chamberlain; also by sallog and Santan San genial, and enlivening. Such in subs were, and such are the impressions which Kansas leaves upon the visitor. It is in-deed a rich and fair country, lying in the very heart of the North American conti-nent, and inhabited by an energetic, generous and intelligent people. At JUNCTION CITY, the first interior branch of the Kansas Pacific breaks away from the main line,

boundary line. Concerning a great part of the immense range of territory included in this brief statement of distance, there has been and still is much popular misunderstanding and curious disagretheesteen among the residents in the eastern half of the state. With regard to the points at issue, I have made as careful and painstaking inquiry as the circumstances of a not prolonged trip across the country would permit. Over its western half the route escapes from the river valley and lies route escapes from the river valley and lies along the high lands and ridges between the Smoky Hill and Saline rivers. To the coach-confined tourist the aspect soon becomes monotonous. But to form any just estimate of the country as it is, the traveler must stop at intervals of 40 or 60 miles, and ride away up its many crop intersecting valleys and creeks, and over the intermediate uplands. 5,294,194 24,515,535 The last five named counties border on ne intermediate aplants.

In the arbitrary division, with respect to the north line of the State. They are listances, of the state into the eastern, given theoreter of their location from east distances, of the state into the eastern, middle and western belts, I said the eastern

Counties. Wheat Wyandotte ......... Leavenworth .......

boundary line. Concerning a great part

to west, Norton being one full county beyond Ellis, and the extension of its western boundary line intersecting the Kanbelt was the most populous and best developed. But immigration, and some improved and improving estimate of the soil sas Pacific at Coyote station, 336 miles west of Kansas City. During 1875 the counties fairly tributary to the Kussas and climate, are rapidly pushing westward the limits of cultivation and population.— Tilled fields are lengthening and breaden Tilled fields are lengthening and breadening away beyond the eastern, across the ing away beyond the eastern across the middle, and into the western belt. The indeal line," which, for sanitary reasons, it is to those tabulated above, not including the five noted, yielded a total of 4,573,310 bushels indeal line," which, for sanitary reasons, the first state of the sanitary tributary to the reasons of Param. shuts out the enormous droves of Texan Were the counties comprised in these shuts out the enormous droves of reash were the counties comprised in these cattle from contact with the stock of the last totals arranged in tabular form and farmer, and native herder, is now beyond last totals arranged in tabular form and farmer, and native herder, is now beyond total totals arranged in tabular form and farmer, and native herder totals arranged in tabular form and total totals arranged in tabular form and farmer, and native herder, is now beyond totals arranged in tabular form and farmer, and native herder, is now beyond total totals arranged in tabular form and farmer, and native herder, is now beyond total totals arranged in tabular form and farmer, and native herder, is now beyond total totals arranged in tabular form and farmer, and native herder, is now beyond total totals arranged in tabular form and farmer, and native herder, is now beyond total totals arranged in tabular form and farmer, and native herder total totals arranged in tabular form and total to tween frequently recurring fields from these facts and statistics do not evapowhich had been cut splendid crops of rate and dispel the 'great American which had been out spiented crops of winter wheat and other small grains—
winter wheat and other small grains—
Growing corn beyond Ellsworth county, lesson. I had nearly forgotten to state that on the line between Kansas City few small fields were poor in comparison and Russel, I counted 13 warehouses and wish in the county of the counter warehouses and city that counter the counter warehouses and city that counter the counter of the counter was the counter of the counter was the counter of the c tew small helds were poor in comparison with the superb growth and yield in the castern half of the state. A fine quality and abundant yield to the acre, of winter wheat, rye, barley, and oats is being preduced as far west as to the "lead line" date date in the last two years.

Kansas has taken high relative rank among the States of the Union in the

among the States of the Union in the successful growing of fruit. In the above described. I was told that the growth of corn had not been sufficiently counties along the line of the Kansr Pa-cific there are under cultivation more than 40,000 acres of nurseries, orcharde, ested. The soil and climate of this section of Kansas certainly seem better adapted to wheat than to corn. I say seem. A few wheat than to corn. I say seem. A few and vineyards. In the more thickly set-years is not unlikely to dissipate this opinyears is not unlikely to dissipate this opin-ion, as has been so thoroughly the fact with regard to the middle and a great part of the eastern belt. I am not an agricultural chemist nor a practical far-mer. But there is good ground for doubt, as least, in the curious analogies which the history of sericultura in Kansas pre-thability of the National Pomelogical Society, at Philadel-phia, by a unanimous vote, awarded to tional Pomological Society, at Philadel-phia, by a unanimous vote, awarded to Kansas its great gold medal "for a col-lection of fruit unsurpassed for size, perfection and flavor." A similar med. the history of agriculture in Kansas presents. A few years ago the "great American desert" comprised in popular judgment nearly three-fourths of entire Kanal was bestowed upon the State in 1871 by the American Pomological Society sas. It is now nearly obliterated,—crased from her map,—and if it exist at all any-where but in the imaginations of men, eastern Colorado has it about all to herat Richmond, Va. And various medal self. It is only five years ago that residents in and around Lawrence and Topeka stood boldly up and declared that no settlements could be made in Saline and Dickinson counties, which are nearly in the exact middle of the state. To-day in the exact middle of the state. To-day is the state about 80,000 acres are under cultitations as marvelously rich producers of every crop which eastern Kansas can boast. My own amusing exand diplomas have since been criried off

The Boulder Valley, diverging from the Denver Pacific at Hughes, and terminating at Boulder City, 27 miles in length.

The Colorado Central, from Denver to Golden, 13 miles broad-gauge, thence to Boulder and Longmont, 43 miles, and from Golden narrow-gauge to Black Hawk and Floyd Hill, in all 67 miles of rail.

The initial point of the Kansas Pacific is Kansas Pacific is Sand Floyd Hill, in all 67 miles of rail.

The initial point of the Kansas Pacific is point the entire railway system of the southwest. Its striking advantages of location, the prestige of its mavelous success, the establishment there of enterprises of a magnificent compass and extent, the arror of the place of pace of particles, the establishment there of enterprises of a magnificent compass and extent, the arror of the place of pace of particles, the establishment there of enterprises of a magnificent compass and extent, the arror of the place of pace of particles are marvelously rich those same counties throughest of every crop which eastern those same counties are marvelously rich those same counties traversed by the Kansas Pacific 75 per cent, have a subdividual questioned expressing the most a few inches to 200 feet below the surface and varying in thickness of bed from six inches to three feet. The Reference in the character and stability of his own sold and climate, by the consinuously rich the catechism of residents of the Kansas Pacific 75 per cent, have a subdividual questioned expressing the most a few inches to 200 feet below the surface and varying in t in the seas opposite. I placed myself beside the peaceful weapon, and interrogated
its owner. He proved to be a large herder.

He had no aspersions to fling at the country west of him. Ranches were beginning
to extend from Denver in every direction Pacific. It is of a delicate cream, sus-ceptible of fine polish, soft when first quarried, but soon hardening by stmos-phere exposure. It can be cut from the quarries in blocks of ten tons' weight, or to ward the east. Was the land feasible for crops? As to the small cercais he had no doubt of it. Was not the climate too dry? Perhaps so, but the rainfall was even larger, is easily worked, and can be readily sawn to any shape desired. The state capitol at Topeka, government buildings at Fort Riley, and many other large structures elsewhere are built of it The stone is abundant and of a superior quality in Ellsworth, Rassel, Ellis, and Trego counties. At Russel a handsome block of stores, a fine, large school-house and a number of residences are built of

> of the Kausas Pacific leaves the main line at Kit Carson,—on recent maps, Carson—a station 486 miles west of Kandistinguished by their owner's peculiar sas City. This branch is built and in brand, mingle indiscriminately, and are operation to Los Animas, 56 miles, a left entirely untended save to prevent their little west of soulds from Carson, thence dus west 20 mies, to La Junta. At-rangements are already perfected for its speedy extension to Trinidad, a point under the Spanish peaks, close to the boundary line of New Moxico. Los Anwhich sweep them.

The said court, on the chancer said court, on the first happen of the cert of said court imas has recently voted \$250,000 in 30-year eight per cent, currency, bonds for the extension from La Junta to Trinidad ultimately secure a large business in the transportation of stock, the ores of the San Juan and southwestern mineral re-

visit them have usually been, for the most part, in the months of March, April, May, June, July and August. There is but little rain during the three or four months of the late fall and winter. At Russell, 262 miles west of Kansas City, the rain-fall during the present season for the six months named has been 32-10 inches.—
Over the settlements of western Kansas, the Union Pacific. This short route the rain-fall is annually increasing, and capibilities a creater tandehor to maiorant. exhibiting a greater tendency to uniformity throughout the year. I do not undergrandeur of the Rocky range. The lands take to present any theory by which to along this line are surprisingly produc account for this fact. But, linked with the entire records of agriculture in Kansaa, the attitude of which controls and utilizes the statistics of which, beginning with the easiern border counties, have each year extended over an enlarging area to the west, and so unvaryingly concurrent with the field and saiden are grown and the field and saiden are grown as the field and saiden are grown.

The wheat and corn crops average no larger yield to the acre in any section of the state than in that along the line of the season of 1876, I could the state than in that along the line of the season of 1876, I could the state than in that along the line of the season of 1876, I could the state than in that along the line of the season of 1876, I could the state than in that along the line of the season of 1876, I could the state than in that along the line of the season of 1876, I could the state than in that along the line of the season of 1876, I could the state than in that along the line of the season of 1876, I could the line, 20 miles nerth of Denver, ... From I along 27 miles to Boulder city. From I alo Cen. railroads. At Boulder City is lo-cated the State university. Some of the richest and most productive gold and silver mines of Colorado are in its cluse vicinity. Among the more famous are the Cariboo, Sunshine, Jim Creek, and Gold Rill mining camps and districts. THE COLORADO CENTRAL Pictorial Family Bible.

to Golden, thence just beneath the foot of the hills 43 miles to Boulder and Longmont. From Golden, beautifully located at the entrance to Clear Creek canon, a narrow-gauge track ascends into the mountains. This line divides at the fork of the creek, running 34 miles 10 Floyd Hill and 8 miles to Blackhawk The Floyd Hill road is projected and partially graded 7 miles beyond to Ida ho Springs. At Blackhawk are the noted Bobtail mines and the smelting-

noted Bobtail mines and the smeltingworks of Prof. N. P. Hill, whose process of treating the ragged ores is said
to be the most successful employed.

The gross earnings of the Kansas Pacific, main line and branches, have during the past season been considerably
more than \$4,000,000.

In the rapid and imperfect sketch of
the Colorado lines, my purpose has been
to complete the reference to the various
railways which serve as feeders to the
Kansas Pacific, and which are a part of
the system owned and controlled by that
great corporation.

Denver, beautiful Denver, the great,
pulsating heart of Colorado—the present
outlook of the mining interests here, in
which the Kansas Pacific have so vital
concern—some glimpses of Colorado
scenery which most with admiration
strike my inexperienced eye, and a few

New York, Nov. 10.—The Post publishes this special dispatch from Gov. lishes this special dispatch from Gov. Chamberlain:

Collymbia, Nov. 10, 1-42 p. m.—South Carolina is safe for the republicans. The democrats claim the state on the basis of heavy reported majorities in three or four counties where the republicans have heretofore had large majorities. If a democratic majority appears on the face of the returns, they are fraudulent, and the result of the grossest terrorism, but conceding the Democrats all they claim in the counties not definitely heard from, and giving the Republicans only what we know we have, the result will be a small majority for the Republicans. The final, honest, official result. licans. The final, honest, official result, cannot, in our best judgement, fall short of 8,000 Republican majority.

(Signed) D. H. CHAMBERLAIN.

(Signed)

CHICAGO, Nov. 10 .- The following are nearly accurate figures on the state of Illinois: The legislature is composed of 24 republicans 22 democrats, and 5 independents in the senate; 82 Reform! Is there any pretense of republicans and 71 democrats in the reform in a movement which has terrepublicans and 71 democrats in the rerized over thousands of voters in the | dents, 98; republicans, 106. 86 coun-Resolved That the city build a brick culvert on South Franklin street sixty feet long.
